Team Members: Stephen Gelhaus, Dan Sjaastad, Parvinder Singh, Frank Erdesz

Title: RazzTunes

Description: Host a music player website on a Raspberry Pi.

Vision Statement: Users can listen to their music anywhere they have internet access.

Motivation: People want to have easy access to music that they choose.

Risks:

- All team members will be learning JavaScript, HTML, and PHP programming languages.
- All team members will be learning Raspbian OS.
- Project will require team to acquire a Raspberry Pi. Delays in acquisition could hinder project schedule.
- We can't stop the user from uploading pirated or explicit music.
